IEG PI NOTICE

No. 60-75

TITLE/SIGNIFICANCE:

A New

Horn Antenna System

25X1

COMMENT: This system is similar in appearance to the R-600 radio-relay variant know as the R-600-2MV. The noticeable difference is the size of the horn antennas; this system utilizes [redacted] antennas whereas the R-600-2MV consists of conventional [redacted] wide antennas. Like the R-600-2MV configuration; one antenna is situated above the [redacted] for increased reliability and range.
